## Why Choose Bamboo?

## Story of Geogoal

*After more than 10 years of experience working in bamboo industry we created Geogoal, a branded household item-line specialized in bamboo designs. Our faith is bring the beauty to everyone's home with our love from nature. Everyone can be an Life Artist.*

- **Design:** Simple and clean lines of our practical products show extreme sophistication and have been designed together with award winning designers from Europe and Asia.
- **Love:** Appreciation for environment and for beautiful design is how Geogoal was born. We are dedicated to offer eco-friendly beauty to your home.
- **Variety:** We offer choice of multi-functional designs from different product ranges. Allows you to easily mix and match different products with each other.
- **Easy:** Light design concept and flat packing assures the efficiency of transportation, as well as assembling and storage of the products.
- **Durability:** Bamboo's naturally solid structure guarantees the long lasting quality of our designs and bring value for your money.

### Natural Features

Bamboo is stronger and more flexible than most type of wood. It also has some favorable characteristics: low shrinkage, easy splitting, high elasticity, extreme toughness, good tensile and compression strength

### Ecology Material

Bamboo is a kind of grass, not only grows like grass, but spreads like grass. It has a fast growing lifecycle, which can grow up to 1m per days. Thus only need 4-6 years till be utilized. It can used as wood after carbonization and lamination.

### Natural Color

Bamboo has a great natural color which can present a unique modern appearance on products. But at same time, bamboo can come in a variety of colors such as light, natural, dark as your like

### Environment Friendly

As a kind of grass, bamboo forest does not need replanting. It can recover naturally. Bamboo can produces twice as much oxygen compared to other wood species. Thus, Bamboo has been recognized as a green way to help us to preserve our earthW
